

Hardware Business Management System

Purpose of This Document

Connects the complete project documentation set into one master handoff view.

Known Project Scope

- Mobile application and web administration system.
- Super Admin and Shop Admin roles.
- Products, purchases, sales, inventory and stock movement.
- Expenses, capital, debts, profit reporting, and 60/40 allocation support.
- Daily opening and daily closing workflows.
- Offline-first mobile storage using SQLite and central MySQL synchronization.
- Notifications, reports, audit trail, validation, error handling, security, and acceptance criteria.

Status Label Convention

Confirmed means the item is part of the agreed scope. Proposed means it is a recommended implementation detail that can still change. Pending Decision means the business owner must decide before a developer or Cloud AI treats it as final.

Status	Meaning	How to Treat It
Confirmed	Agreed project requirement or design direction.	Use as baseline for planning and implementation.
Proposed	Recommended approach that may still change.	Validate during design and owner review.
Pending Decision	Business, accounting, or technical rule not fully approved.	Do not hard code. Ask the owner or make configurable.

Master Documentation Summary

This master documentation connects all individual project documents into one handoff view for development planning.

Document	Purpose	Primary Consumer
01	Project Overview and Vision Document	Owner Developer Cloud AI
02	Business Requirements Document BRD	Owner Developer Cloud AI
03	Software Requirements Specification SRS	Owner Developer Cloud AI
04	Business Rules and Financial Logic Document	Owner Developer Cloud AI
05	System Architecture and Technical Design STD	Owner Developer Cloud AI
06	Database Design and ERD	Owner Developer Cloud AI
07	Use Case Specification and Use Case Diagram	Owner Developer Cloud AI
08	DFD and System Flow Diagrams	Owner Developer Cloud AI
09	Offline First and SQLite MySQL Synchronization Specification	Owner Developer Cloud AI
10	API Specification	Owner Developer Cloud AI
11	Web Application Specification	Owner Developer Cloud AI
12	Mobile Application Specification	Owner Developer Cloud AI
13	Roles and Permissions Specification	Owner Developer Cloud AI
14	Inventory and Stock Management Specification	Owner Developer Cloud AI
15	Sales Purchases Expenses Capital and Debt Management Specification	Owner Developer Cloud AI
16	Reports and Profit Calculation Specification	Owner Developer Cloud AI
17	UI UX Requirements	Owner Developer Cloud AI
18	Security Requirements	Owner Developer Cloud AI
19	Testing and QA Plan	Owner Developer Cloud AI
20	Deployment and Maintenance Guide	Owner Developer Cloud AI
22	Master Prompt PDF ya kumpa Cloud AI	Owner Developer Cloud AI

Development Sequence

Confirm pending accounting and business rules.

Finalize UX and screen flow.

Finalize database schema and sync design.

Build backend API.

Build mobile app and web admin.

Test offline, reports, security, and acceptance cases.

Pilot and deploy.

Master Acceptance Criteria

- Every confirmed requirement has an implementation path.

- Every pending decision is visible.
- Cloud AI or developer can start development without guessing scope.
- System design preserves offline-first operation and auditability.

Open Decisions That Must Not Be Invented

Decision Area	What Must Be Confirmed	Status
Profit formula	Exact formula for gross profit, net profit, cash profit, and expense treatment.	Pending Decision
Stock costing method	Latest cost, weighted average, FIFO, or another method for cost of goods sold.	Pending Decision
60/40 destination labels	Meaning of 60 percent and 40 percent amounts in business reports.	Pending Decision
Allocation timing	Daily, weekly, monthly, per closing, or owner-approved timing.	Pending Decision
Tax or VAT handling	Whether tax calculation is part of first release and how it affects reports.	Pending Decision
Returns refunds discounts	How returns, damaged goods, refunds, and discounts affect stock and profit.	Pending Decision

Acceptance of This Document

- The document is acceptable when the owner can identify which items are confirmed, proposed, and pending decision.
- A developer or Cloud AI can use the confirmed parts without needing to guess the project direction.
- Pending accounting rules remain visible and are not presented as final business rules.
