

# Hardware Business Management System

## Purpose of This Document

Defines deployment stages, maintenance, monitoring, backups, and support expectations.

## Known Project Scope

- Mobile application and web administration system.
- Super Admin and Shop Admin roles.
- Products, purchases, sales, inventory and stock movement.
- Expenses, capital, debts, profit reporting, and 60/40 allocation support.
- Daily opening and daily closing workflows.
- Offline-first mobile storage using SQLite and central MySQL synchronization.
- Notifications, reports, audit trail, validation, error handling, security, and acceptance criteria.

## Status Label Convention

Confirmed means the item is part of the agreed scope. Proposed means it is a recommended implementation detail that can still change. Pending Decision means the business owner must decide before a developer or Cloud AI treats it as final.

| Status           | Meaning                                                     | How to Treat It                                       |
|------------------|-------------------------------------------------------------|-------------------------------------------------------|
| Confirmed        | Agreed project requirement or design direction.             | Use as baseline for planning and implementation.      |
| Proposed         | Recommended approach that may still change.                 | Validate during design and owner review.              |
| Pending Decision | Business, accounting, or technical rule not fully approved. | Do not hard code. Ask the owner or make configurable. |

## Deployment Plan

| Stage       | Activities                                     | Exit Criteria                       |
|-------------|------------------------------------------------|-------------------------------------|
| Development | Build modules, schema, API, mobile, web, sync. | Core features pass developer tests. |

| Stage      | Activities                            | Exit Criteria                                |
|------------|---------------------------------------|----------------------------------------------|
| Staging    | Test real workflows with sample data. | Owner accepts behavior and reports.          |
| Pilot      | Deploy to one shop or limited users.  | Critical issues are fixed.                   |
| Production | Deploy to all approved shops.         | Backups, monitoring, and support are active. |

## Maintenance Requirements

- Regular backups and restore tests.
- Monitor sync failures and server errors.
- Update mobile app safely with version tracking.
- Keep audit logs and reports available.
- Review user access regularly.

## Open Decisions That Must Not Be Invented

| Decision Area             | What Must Be Confirmed                                                          | Status           |
|---------------------------|---------------------------------------------------------------------------------|------------------|
| Profit formula            | Exact formula for gross profit, net profit, cash profit, and expense treatment. | Pending Decision |
| Stock costing method      | Latest cost, weighted average, FIFO, or another method for cost of goods sold.  | Pending Decision |
| 60/40 destination labels  | Meaning of 60 percent and 40 percent amounts in business reports.               | Pending Decision |
| Allocation timing         | Daily, weekly, monthly, per closing, or owner-approved timing.                  | Pending Decision |
| Tax or VAT handling       | Whether tax calculation is part of first release and how it affects reports.    | Pending Decision |
| Returns refunds discounts | How returns, damaged goods, refunds, and discounts affect stock and profit.     | Pending Decision |

## Acceptance of This Document

- The document is acceptable when the owner can identify which items are confirmed, proposed, and pending decision.
- A developer or Cloud AI can use the confirmed parts without needing to guess the project direction.
- Pending accounting rules remain visible and are not presented as final business rules.
