

Hardware Business Management System

Purpose of This Document

Defines business objectives, stakeholders, workflows, and business requirements.

Known Project Scope

- Mobile application and web administration system.
- Super Admin and Shop Admin roles.
- Products, purchases, sales, inventory and stock movement.
- Expenses, capital, debts, profit reporting, and 60/40 allocation support.
- Daily opening and daily closing workflows.
- Offline-first mobile storage using SQLite and central MySQL synchronization.
- Notifications, reports, audit trail, validation, error handling, security, and acceptance criteria.

Status Label Convention

Confirmed means the item is part of the agreed scope. Proposed means it is a recommended implementation detail that can still change. Pending Decision means the business owner must decide before a developer or Cloud AI treats it as final.

Status	Meaning	How to Treat It
Confirmed	Agreed project requirement or design direction.	Use as baseline for planning and implementation.
Proposed	Recommended approach that may still change.	Validate during design and owner review.
Pending Decision	Business, accounting, or technical rule not fully approved.	Do not hard code. Ask the owner or make configurable.

Business Objectives

Objective	Business Value	Status
Central visibility	Owner can review business performance across shops.	Confirmed

Objective	Business Value	Status
Fast shop recording	Shop Admin records sales, purchases, expenses, debts, stock changes, and closing.	Confirmed
Offline resilience	Core transactions can be recorded without internet.	Confirmed
Financial discipline	Capital, debts, expenses, profit, and 60/40 allocation can be monitored.	Confirmed
Auditability	Important actions are traceable to user, shop, device, and time.	Confirmed

Stakeholders

Stakeholder	Need	Status
Business owner	Full visibility, control, reports, and financial direction.	Confirmed
Super Admin	Setup shops, users, permissions, products, reports, settings, and audit review.	Confirmed
Shop Admin	Record daily shop activity and close the day correctly.	Confirmed
Developer or Cloud AI	Clear requirements, rules, designs, and open decisions.	Confirmed
Customer or supplier	Can be represented in debts and purchase workflows where needed.	Proposed

Business Processes

Process	Business Requirement	Status
Daily opening	A shop day is opened before transactions are reviewed for that day.	Confirmed
Purchases	Purchases increase stock and record cost, supplier if used, shop, date, and user.	Confirmed
Sales	Sales reduce stock and record price, payment status, shop, user, and customer if used.	Confirmed
Expenses	Expenses are recorded by category and appear in reports.	Confirmed
Debts	Debt balances, repayments, and outstanding balances are tracked.	Confirmed
Daily closing	The day is closed with totals, notes, exceptions, and audit protection.	Confirmed

Open Decisions That Must Not Be Invented

Decision Area	What Must Be Confirmed	Status
Profit formula	Exact formula for gross profit, net profit, cash profit, and expense treatment.	Pending Decision
Stock costing method	Latest cost, weighted average, FIFO, or another method for cost of goods sold.	Pending Decision
60/40 destination labels	Meaning of 60 percent and 40 percent amounts in business reports.	Pending Decision
Allocation timing	Daily, weekly, monthly, per closing, or owner-approved timing.	Pending Decision
Tax or VAT handling	Whether tax calculation is part of first release and how it affects reports.	Pending Decision
Returns refunds discounts	How returns, damaged goods, refunds, and discounts affect stock and profit.	Pending Decision

Acceptance of This Document

- The document is acceptable when the owner can identify which items are confirmed, proposed, and pending decision.
- A developer or Cloud AI can use the confirmed parts without needing to guess the project direction.
- Pending accounting rules remain visible and are not presented as final business rules.
